EDUCATION

Bachelor of Technology – Computer Science and Engineering

TKM College of Engineering, Karicode, Kollam, Kerala

Expected: May 2027

CGPA: 9.07 / 10.0

TECHNICAL SKILLS

Languages & Markup: HTML, CSS, JavaScript, Python, Java

Frameworks & Libraries: Bootstrap

Concepts: REST APIs, Async/Await, Database Integration, Embedded Systems (Arduino)

Tools: Git, GitHub, VS Code

PROJECTS

Automated Water Regulation System

Hardware & Embedded Systems

- Designed and built an automated water-level monitoring and regulation system using Arduino microcontroller.
- Integrated sensors and actuators to control water flow without manual intervention, reducing water wastage.

Escape Room Game

Java | OOP

- Developed a text-based escape room game in Java applying object-oriented programming concepts.
- Implemented puzzle mechanics, state management, and player interaction logic using Java classes and control flow.

Movie Review Website

HTML | CSS | JavaScript | Database

- Built a dynamic movie review web application with full CRUD functionality backed by a database.
- Designed a responsive front-end interface allowing users to submit, view, and manage movie reviews.

Local E-Commerce Website

HTML | CSS | JavaScript | Bootstrap

- Developed a localised e-commerce platform prototype aimed at connecting nearby shops with customers online.
- Implemented product listing and basic UI workflows; actively improving features and functionality.

Weather Application

JavaScript | REST API | Async/Await

- Built a browser-based weather app that fetches real-time data from a public weather REST API.
- Gained hands-on experience with asynchronous JavaScript (async/await) and JSON data parsing.

EXTRACURRICULAR ACTIVITIES

- Active participant in inter-collegiate Badminton tournaments.
- Member of college Athletics team; competes in track and field events.
- Regular participant in Football team activities, demonstrating teamwork and leadership.
